

# MDR-5000 “AVI” Conversion Process

# Open the AVI Conversion Menu

1. During video playback, click the "AVI" conversion button on the software application.

The screenshot displays the MGC software interface during video playback. The main window shows a video feed of a residential street with trees and a house. The video player includes a progress bar at 00:17 and playback controls. A red box highlights the "AVI" conversion button in the bottom right corner of the interface. To the right, a table lists event data for "E Drive".

NO.	DATE	TIME	TYPE
001	2015-04-06	11:39:20	Event (G)
002	2015-04-06	15:43:54	Event (G)
003	2015-04-13	07:58:16	Event (G)
004	2015-04-13	08:09:54	Event (G)
005	2015-04-14	15:02:30	Event (G)
006	2015-04-14	15:04:36	Event (G)
007	2015-04-21	13:34:07	Event (G)
008	2015-04-21	13:34:58	Event (G)
009	2015-04-22	08:11:00	Normal
010	2015-04-22	08:12:01	Normal
011	2015-04-22	08:13:02	Normal
012	2015-04-22	08:14:02	Normal
013	2015-04-22	08:15:04	Normal
014	2015-04-22	08:44:21	Normal
015	2015-04-22	08:45:21	Normal
016	2015-04-22	08:46:22	Normal

Additional interface elements include a "DRIVING REPORT" header, "MGC" logo, a video ID "MDR50141100008", a timestamp "11.3012015/04/22 08:11:18 14.22U", and a version number "v 1.4.5u".

## ***File Conversion Process***

2. Choose the destination by clicking the "Select Path" button.
3. Click the check boxes for the channels which you would like to convert.
4. Use the dropdown menu to select how many files you would like to merge.
5. Click the "Merge" button and the files will be converted to the destination path selected in Step 2.
